Berrybank Stage-1 Wind Farm

Community Projects Update

GPG would like to start these Newsletter with a Heartfelt Thank you to Lesley Brown for her time and commitment to being a member of the BB1 CEC. Unfortunately she has decided that it is her time to move on from her position as Councilor which in turn has led her to make the decision to also leave the Committee. We wish Lesley all the best for the future and we are sure she will be successful in her future endeavors. With Lesley leaving the committee we also welcome in 2 new members. We welcome in Nicholas Cole (New Corangamite Shire Councilor) and Helena Kirby (the new Mayor of Golden Plains Shire).

On Wednesday 9th December, Corangamite Shire council held the official opening ceremony of the Lismore Water Tower Project. This event was very well attended, among those attending were the amazing artist Jimmy Buscombe, members from Corangamite Shire, the team from Storytowns Podcast that have featured Lismore on there podcast about the local area, local staff members from Global Power Generation and members from the local representative committee including former Corangamite Shire Councilor Lesley Brown who played a major role in securing the funding for this amazing community project.

On Thursday 10th December, Corangamite Film Society and Corangamite Shire Council held the official opening of the Camperdown Theatre project, with the screening of its first public screening since COVID-19 with a movie titled 'The Artist'. This was the first time the new projection and audio equipment has been used. The event was attended by members of the Corangamite Film Society including Garth Wesson, members of Corangamite Shire Council including Garry Moorfield and Cr. Laurie Hickey and Community Engagement Officer from Berrybank Wind Farm, Nathan Micallef. This was a well attended and run event and was enjoyed by all that attended. If you are a movie buff and would be interested in checking out the new projection and audio equipment you can attend the 'Thursday Pictures' screening held on the first Thursday of each month.

Berrybank Stage-2 Wind Farm

Community Update

Global Power Generation has a best practice of providing effective and beneficial community benefits to the local communities around our projects. One way we achieve this is by way of establishing the Community Engagement Committee to assist in the development and implementation of our extensive Community Benefits Plan. The Berrybank Stage-2 Wind Farm are currently calling out for members of the community to join the Community Engagement Committee. If you would be interested to have a role in the development and implementation of the Community Benefit Plan and join the Community Engagement Committee, please contact Nathan Micallef at Nathan.micallef@globalpower-generation.com.au or on 0400 403 282. Applications close on Friday 15th January 2021.

Construction Update

Preliminary works on the transmission line along Padgetts lane have now been completed. These works included the installation of the insulators and wire rollers in preparation for stringing the conductor wires to begin in the new year.

On a side note

GPG and everyone from the Berrybank Wind farm team would all like to wish you all a very Merry Christmas and a very safe and prosperous New Year. We have had an eventful year and have enjoyed every minute of the events we have attended and the conversation we have had with community members regarding the Wind farm. It is always nice to know that we have a nice support network in the community. GPG will be closed from the 18th of December to the 4th of January. We all hope you get some down time in and we will all see you back in the new year fresh faced and rested and ready to go again.
