

DID YOU KNOW?

- ✔ Global Power Generation has installed 3 new water tanks around the area of the Wind Farm with CFA fittings, to be used for local firefighting efforts.
- ✔ Global Power Generation has now secured 2 local contractors to provide the services for the upgrades and repairs to the Berrybank School Hall. These improvements include New Lighting, Reverse Cycle Air Conditioner, New Ceiling, Removal of Wood Fire Heater and General Tidy up of Building. The works will begin in the coming weeks and should be completed by May.

COMMUNITY UPDATE

✔ Lismore Water Tower Project

Warrnambool artist, Jimmi Buscombe, who rose to fame when a video about his "Gutsy the Wombat" mural had 58 million views on Facebook, has now completed the mural. This artwork has turned Lismore's water tower into a tourist attraction. The mural on the 20m tall concrete water tower has taken approximately 3 weeks to complete. The mural has sheep, brolgas and native plants set in a misty south west landscape from the area. Jimmi has estimated that he has used 120 litres of low-sheen exterior house paint which has been applied by a handheld sprayer and the detail work completed by brush. This local art project was made possible due to the funding provided by Global Power Generation and Corangamite Shire Council. There will be an event on Wednesday 18th March at 5:30pm to celebrate Jimmi's transformation of the Lismore water tower into an amazing piece of public art, this event will be held at the Lismore Golf Club and all are welcome to attend.

✔ Solar Power Program

Global Power Generation, during February, awarded Off-Grid Energy Australia power to supply to services to implement the Solar Power Program over the Corangamite and Golden Plains Shire Council areas. Off-Grid Energy Australia is a multi-award-winning company that is a Stand-Alone Power and Renewable Energy Specialist and has been one of Australia's leading solar power system providers since 2011. We look forward to working with Off-Grid Energy Australia on the Solar Power Program.

The Community Solar Power Program will provide solar power systems to community facilities and owner/renter occupied households located within 75km of the Wind Farm, within the Corangamite and Golden Plains Shire Councils. GPG/Berrybank Development Pty Ltd aims to subsidize up to 80% of the cost of supply and installation of the solar power systems. We are now calling for Expressions of Interest from community facilities and owner/renter occupied households that would potentially be involved in the Community Solar Program. EOI forms can be obtained by emailing Nathan at nathan.micallef@unionfenosa.com.au or dropping into the Site Office on Padgetts Lane, Wallinduc to pick one up. All Expression of Interest forms need to be returned by Thursday 30th April 2020.

CONSTRUCTION UPDATE

✔ Cable Trenching

Cable Trenching works are nearing completion across Padgetts Road between Berrybank-Wallinduc Road and Bennetts Lane with only resealing works still to be completed. The cable trench crossing of Boundary Road between Berrybank-Wallinduc Road and Bennetts Lane will be completed next week. During this time there may be minor delays along Boundary Road.

✔ Transmission Line

Works have begun on Padgetts Road between Berrybank-Wallinduc Road and Lismore-Scarsdale Road in preparation for the installation of the Transmission Line to Mt Bute. These preliminary works consist of widening the road for a 20m stretch every 200m, to allow for safe passing of vehicles during the construction of the Transmission Line, and pre-drilling of pole foundations.

✔ Pre-installation

Our contractors have now completed 14 pre-installations of the Wind Turbine Generator Towers. This pre-installation includes the installation of the Base Tower and Lower Mid Tower sections. There are currently 84 of the 172 tower sections on site and there are currently 239 of the remaining 301 components on site which are all being prepared for final installation. The next 500 tonne crane will be arriving on site in early March which will also be used to complete the pre-installations of the WTG's, with both cranes working on the Pre-install. We expect to see 4 WTG's pre-installed per week.

YOU'RE INVITED

Join us and celebrate Jimmi Buscomb's transformation of the Lismore water tower into an amazing piece of public art.

Wednesday 18 March, from 5:30 pm
Lismore Golf Course
