

Berrybank Wind Farm

Weekly Construction Report - 17/11/2020

Berrybank Stage-1 Wind Farm:

Civil: Drainage works are continuing site wide, final trim of hardstand and access tracks are being completed.

WTG's: All pre-commissioning of the installed 42 turbines are now complete. High voltage testing is still under way.

TXL: Final tree clearing, and fence reinstatement is under way.

Substations: All works are now complete.

Berrybank Stage-2 Wind Farm:

Topographical surveying and geotechnical inspections have begun for the internal access tracks and turbine locations.

Geotechnical inspections are also being completed for the underground cable.
