Berrybank Stage –1 Wind Farm

Community Update

Berrybank Wind Farm has contracted Off Grid Energy Australia to deliver the Berrybank Wind Farm Community Solar Program. The engineering for the Corangamite and Golden Plains Shire Councils' buildings that are receiving solar installations is nearing completion, ready to move to installation phase. The contractors are undertaking the final residential household inspections to determine the installation point and most efficient system for each dwelling. Both the Council building installations and the private dwelling installations are expected to begin during the start of December. Global Power Generation are proud to fund this locally-focused step towards a more renewable future.

Construction Update

The civil contractors are touching up some site drainage and tidying up the paved surfaces across the farm, to be ready to hand over the works from the construction team to operations. Internal works on all 42 installed turbines are complete, making them ready for energization and testing. The high voltage lines along Padgetts Lane have been strung and are now connected to the electrical network.

Berrybank Stage -2 Wind Farm

GPG's successful bid for a power purchase agreement with the ACT has prompted movement on the preparation works for stage 2 of the development. Vestas have been appointed as Engineering, Procurement and Construction contractor for the 26 turbine project, and we have been in consultation with the landowners to ensure a smooth construction process.

A new Community Benefits Plan is being produced which will allocate more funds for projects in the surrounding towns and communities.

The Berrybank Stage-2 Wind Farm Community Engagement Committee is being established and we are currently calling out for members. If you would be interested to have a role in the development and implementation of the Community Benefit Plan and join the Community Engagement Committee, please contact Nathan Micallef at Nathan.micallef@globalpower-generation.com.au or on 0400 403 282. Applications close December 30th, 2020.

On a side note

A Landowner has sent us this photo last week and we loved it that much we thought we better share. If you ever get a good happy snap, please feel free to share it with us. We will do our best to include it when we can. Thank you, Dominique Matthews, for your contribution. It is a stunning photo.
